

OMBRA

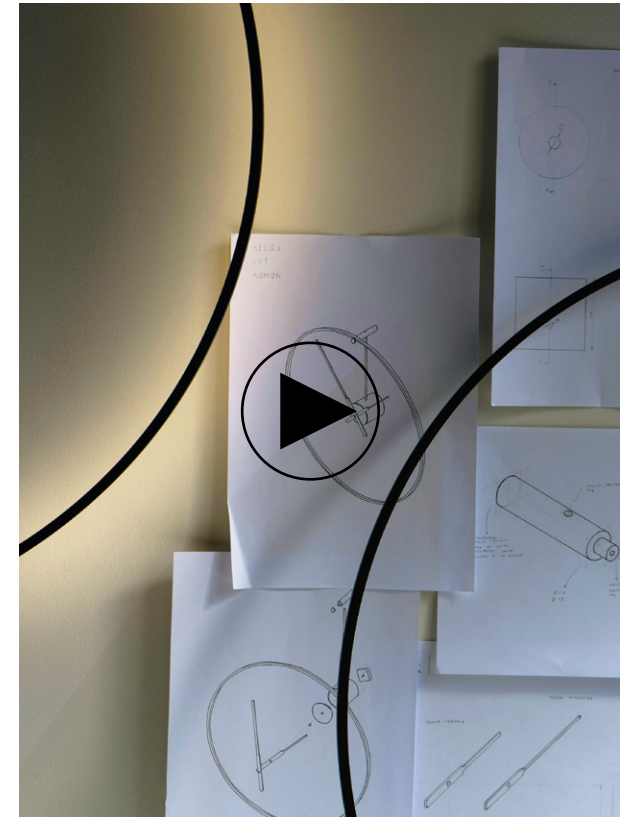

Lighting clock

nomon
JEWELRY FOR HOME

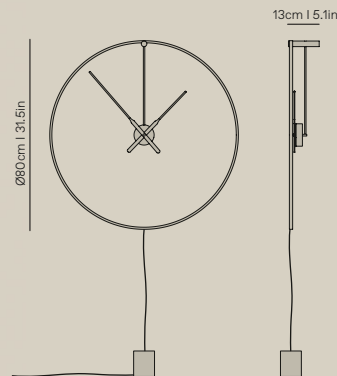

Ombra generates a glowing halo, exploring the relation between light and our iconic clocks.

Faithful to our style, we have created a new product typology, the light clock. A piece that goes beyond its function, creating environments with warm and intimate lighting.

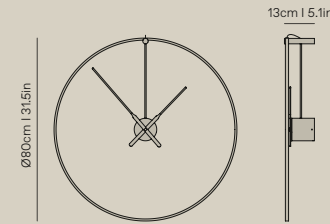

PLUG-IN VERSION

This option allows the clock to be easily installed in any space. The cable is integrated into the design itself where the illuminated ring plays the main role.

WALL VERSION

In this option, the light halo of the Ombra clock takes center stage. Avoiding any cable, the clock stands out for its personality and minimalism.

TECHNICAL INFORMATION

Lamp: LED not dimmable
Input voltage: 100-240 V
Frequency: 50-60 Hz
(according to destination)
Wattage 8 W
Efficacy: 75Lm/W
Lumens: 600 lm
Colour Temperature: 3000K
Angle: 120°
CRI: ≥ 90
IP: IP20
